

## Let Us Help YOU!

There are many, many products on the market that are designed for specific needs. Computers can make life easier for everyone, not just people without difficulties.

Make Life Easier  
With Computers!

## *Assistive Technology* *Making Life With* *Computers Easier!*

## What are Assistive Technology Products?

These products are designed to allow individuals alternate ways to use their computers other than using the traditional keyboard and mouse.

## Who are Assistive Technology Products Used For?

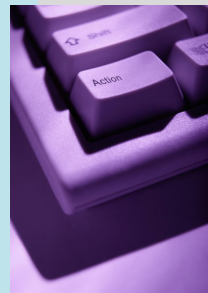

Anyone can benefit from the use of these products. Some are designed for specific needs of the Blind, Handicapped, people with hearing loss, or anyone that has a hard time using traditional computer components.

## How can Assistive Technology Products Help Me?

Here are some examples of Assistive products and how they may help.

**Alternate key boards-** these may feature smaller or larger keys and also come in a variety of non-traditional key board setups

**Joysticks-** can be used by the hand, feet, and chin to move a cursor around the screen

*Adaptive Keyboards Help Alleviate Difficulty Typing*

*Let Us Help YOU Get Back Online & In Touch With Your Loved Ones!*

**Speech writing programs-** used with a microphone for people who have limited use of their hands.

**Screen readers-** are used to “speak” everything on the computer screen

**Touch screens-** allow selection of items by touching the screen.
